

GOLDSTAR G3 TRAILER

LENGTHS 8200-9200 MM

SIDE HEIGHT 1050-1300 MM

FLOOR 4-8 MM HB450

SAF

DOUBLE MOUNTED

3, 4 OR 5 AXLES

DESIGNED TO PULL HEAVY LOADS

Our turn table trailer developed by us, with its superior stability and durability, is designed to handle extra heavy loads. With a weight-optimised Goldstar G3 dumper and modular chassis, the axles and length are easily customized to your needs and payloads. The trailer allows for quick loading and unloading thanks to its low chassis height and short cycle times, resulting in both efficiency and profitability. To put it shortly: Our trailer pulls heavy loads – every time.

With a chassis and dumper from Sörling, you get a trailer that meets all your needs, designed by a manufacturer with unparalleled expertise and experience in bodywork and trailer vehicle manufacturing.
